

1. Identification of the substance/preparation and of the company undertaking

- **Trade Name:** KPL Mono-Ammonium Phosphate (MAP)
- **Application:** Nitrogen-phosphorus fertilizer for crops requiring lower pH or chloride-free nutrition
- **Manufacturer/Supplier:**
Kesar Petroproducts Ltd.
Plot No. D-7/1, Lote Parshuram MIDC, Tal-Khed, Dist. Ratnagiri,
Maharashtra – 415722
- **Further Information:** Product Safety Department, Kesar Petroproducts Ltd.,
Ratnagiri Plant

2. Hazards Identification

- **GHS Classification:**
 - **Not classified** as flammable, explosive, or acutely toxic
 - **May cause eye/skin irritation** (H315, H319)
 - **Dust may cause respiratory irritation** (H335)
- **Label Elements:**
 - **Pictogram:** None required for standard fertilizer-grade MAP
 - **Precautionary Statements:**
 - P261 – Avoid breathing dust
 - P280 – Wear protective gloves/eye protection
 - P305+P351+P338 – IF IN EYES: Rinse cautiously with water for several minutes

3. Composition/Information on Ingredients

- **Description:** Mono-Ammonium Phosphate
- **Chemical Formula:** $\text{NH}_4\text{H}_2\text{PO}_4$
- **CAS No.:** 7722-76-1
- **Typical Purity (Fertilizer Grade):** $\geq 98\%$
- **Nutrient Content:**

- **N (Nitrogen):** 11% minimum
 - **P₂O₅ (Phosphorus Pentoxide):** 52% minimum
 - **pH (1% solution):** 4.0 – 4.5 (mildly acidic)
-

4. First-Aid Measures

- **Inhalation:** Move to fresh air. If irritation persists, seek medical attention.
 - **Skin Contact:** Wash with soap and water.
 - **Eye Contact:** Flush immediately with copious water for at least 15 minutes. Seek medical advice if redness or pain continues.
 - **Ingestion:** Rinse mouth. Do NOT induce vomiting. Drink water if conscious. Consult a physician.
-

5. Fire-Fighting Measures

- **Extinguishing Media:** Water spray, dry chemical, CO₂, or foam
 - **Special Hazards:** May release ammonia and phosphorus oxides when heated strongly
 - **Firefighter Protection:** Use full protective clothing and self-contained breathing apparatus
-

6. Accidental Release Measures

- **Personal Precautions:** Wear dust mask, gloves, and eye protection
 - **Environmental Precautions:** Prevent entry into water bodies (risk of eutrophication)
 - **Cleanup Methods:** Collect mechanically or by wet sweeping. Place in sealed container. Avoid dry sweeping to prevent dust.
-

7. Handling and Storage

- **Handling:** Use in well-ventilated areas. Minimize dust. Avoid contact with strong bases or chlorides.
 - **Storage:** Store in a cool, dry, covered area on pallets. Keep bags sealed. Do not store near lime or calcium-based fertilizers.
-

8. Exposure Controls/Personal Protection

- **Occupational Exposure:** No specific OEL; general particulate limits apply
- **Engineering Controls:** Local exhaust at handling points
- **PPE:**
 - Respiratory: N95 mask if dust is visible
 - Hand Protection: Nitrile or rubber gloves
 - Eye Protection: Safety goggles

- Skin Protection: Long sleeves and apron
-

9. Physical and Chemical Properties

- **Appearance:** White to off-white granules or crystals
 - **Odour:** Odourless (no ammonia smell under normal conditions)
 - **pH (1% aqueous solution):** 4.0 – 4.5
 - **Solubility in Water:** Very high (~368 g/L at 20°C)
 - **Bulk Density:** ~0.8–0.9 g/cm³
 - **Decomposition:** Releases ammonia above 155°C
 - **Hygroscopicity:** Low to moderate; less prone to caking than DAP
-

10. Stability and Reactivity

- **Stable under normal storage and handling**
 - **Incompatible with:** Strong alkalis (e.g., lime, calcium hydroxide), which release ammonia gas
 - **Hazardous Decomposition:** Ammonia (NH₃), phosphorus oxides (at high temp)
-

11. Toxicological Information

- **Acute Toxicity (oral, rat):** LD₅₀ > 2,000 mg/kg (low toxicity)
 - **Skin/Eye Irritation:** Mild irritant due to acidity
 - **Inhalation:** Dust may cause mild respiratory tract irritation
 - **Carcinogenicity:** Not classified (IARC Group 3)
-

12. Ecological Information

- **Environmental Impact:** Phosphate content may contribute to **eutrophication** if mismanaged
 - **Precaution:** Apply as per agronomic recommendations; avoid runoff into lakes or rivers
-

13. Disposal Considerations

- **Product:** Can be used as fertilizer or disposed of as non-hazardous agricultural waste
 - **Packaging:** Triple-rinse empty bags; recycle or dispose per local regulations
 - **Large Spills:** Recover and reuse if uncontaminated
-

14. Transportation Information

- **UN Number:** Not regulated
- **Proper Shipping Name:** Ammonium phosphate, monobasic
- **Transport Classification:** Not restricted under IMDG, IATA, or ADR for fertilizer use

15. Regulatory Information

- **GHS Status:** Not classified as hazardous under CLP or HCS
- **Fertilizer (Control) Order, India:** Compliant
- **REACH/TSCA:** Listed

16. Other Information

This information is based on current knowledge and is provided in good faith. It does not constitute a warranty. Users must ensure compliance with local agricultural and environmental regulations.
